VSoft Corporation Named to the 2007 Inc. 5,000

- Recognized for significant sales growth by Inc. magazine's first annual list -

ATLANTA, Sept. 11, 2007 – VSoft Corporation, a global information and technology provider of process improvement solutions for financial institutions, announced its inclusion in the 2007 Inc. 5,000, an extension of *Inc.* magazine's annual Inc. 500 list, for achieving a three-year sales growth of more than 107 percent. VSoft is one of the companies recognized for its performance as a major contributor to the U.S. economy.

"The Inc. 5,000 provides the most comprehensive look ever at the most important part of the economy – the entrepreneurial part," said Inc. 5,000 Project Manager Jim Melloan. "The expansion of the list has allowed us to tell the stories of larger companies, older companies, and a wealth of companies in industries like Manufacturing and Construction that are underreported in the business media."

VSoft Corporation dramatically expanded its client base and product offerings over the last few years. With more than 45 percent of the corporate credit union market and more than 1,700 financial institutions worldwide currently using the company's products, VSoft is a proven leader in providing imaging solutions for the financial industry. Furthermore, VSoft's Remote Capture solutions have been rated as "the overall performance leader in advanced technology and breadth of features" in Celent's analyst report, "Branch Capture Vendors: Adoption Takes Hold," which also stated that "VSoft's technology is state-of-the-art with significant ongoing investment in R&D [research & development]."

"Our inclusion in the Inc. 5,000 is testament to our successes within the financial industry," said Murthy Veerghanta. "The companies recognized by Inc. have achieved significant accomplishments across many industries, and we are honored to be named among them. We are committed to meeting the demands of our financial institution clients, and we will continue to strive towards excellence as we continue to grow."
