VSoft's VServe Data Center Exceeds 75 Customers
Financial solution provider's outsourcing division continues steady growth

ATLANTA, Nov. 1, 2011 – VSoft Corporation, a global information and technology provider of process improvement solutions for financial institutions, announced today that the company has surpassed 75 customers at its global data center VServe. Customers include Public Service Credit Union of Denver, San Francisco–based Union Bank, Oswego, Ill.–based Allied First Bank and Milwaukee, Wisc.-based Great Midwest Bank.

VServe provides VSoft's full suite of check and core processing software solutions to bank and credit union customers of all sizes. Financial Institutions can take advantage of an outsourcing alterative with VServe, which offers high capacity network systems that deliver a dependable infrastructure, and is staffed by operations experts, network architects and application administration managers to provide customer support 24 hours a day, seven days a week.

"Partnering with VServe to host our branch capture product provided us with a best-case scenario that we felt was tailor-made to fit our needs," said Mark Loeffel, vice president of Great Midwest Bank. "Maximizing efficiency with check processing is an important initiative for any bank, and VSoft provides forward-looking solutions with the tools to satisfy operational and strategic requirements."

VSoft solutions handle complete, end-to-end processing to ensure efficient, quality transaction processing. The company expanded its deployment options with VServe in 2010 in addition to its in–house and partner offerings.

"Exceeding 75 VServe customers represents a significant milestone, and we look forward to working with many additional institutions to maximize efficiency and cost savings through technology enhancements," said Murthy Veeraghanta, chairman and managing director, VSoft Corporation. "VServe is equipped to protect critical information and through proactive monitoring mitigates risk and ensures regulatory compliance. The cost reduction and increased flexibility

offered by VServe enable financial institutions to easily bring new products and services to market without a large capital investment."
