VSoft Premieres Product Updates at Annual Client Conference

*Leading technology provider unveils new product features
at this year's "VISION: Game On" conference*

ATLANTA, May 23, 2017 – [VSoft Corporation](#), a global provider of information and technology solutions for financial institutions, announced product updates and new feature functionalities at its annual client user conference, VISION 2017, on May 2-4 at the Atlanta Marriott Northwest. Nationwide users of VSoft's Vantage Platform, which includes: remote deposit capture, image processing, digital banking and core processing software, received a first hand look at new features and functionalities in the VSoft product suite.

On the second day of the conference, VSoft product manager, Abhishek Veeraghanta, unveiled the latest release of VSoft's [OnView Suite](#), a truly cloud-based and device agnostic platform that was created with Angular, a JavaScript framework. The architecture was designed to provide a consistent look and feel across devices as well as an easy-to-use interface.

"Financial Institutions want the flexibility to conduct business on any device, just as account holders expect in their everyday lives. The infrastructure of the OnView Suite was carefully designed as a sustainable, scalable solution to the ever changing taste and preferences of account holders," said Abhishek Veeraghanta. "VSoft's OnView Branch deposit was updated to allow branch staff to be more flexible and provide an interactive experience with account holders."

The three-day event also featured updates on VSoft's [CoreSoft™](#) core processing system and its [IRIS](#) digital banking platform. Complimentary product training was provided, along with industry-focused sessions like "What's in Your Playbook?," where attendees considered their business banking strategy and learned best practices for attracting, engaging and retaining business customers – a rapidly growing market segment. The agenda also included a motivational keynote delivered by JJ Birden and social events to provide networking opportunities with industry peers.

"For over 20 years, it has been our privilege to support banks and credit unions with our product suite by streamlining processes and creating efficiencies, enabling our clients to meet the growing needs of their customers," said Murthy Veeraghanta, chairman and CEO of VSoft Corporation. "As VSoft continues to provide innovative solutions to the financial technology industry, our client conference will act as the source that keeps clients informed on up-to-the-minute industry trends and VSoft's latest product offerings."
