VSoft Announces New Chief Operating Officer of Data Center
Data Center, VServe Inc., Continues to Grow Leadership Team

ATLANTA, January 7, 2014 - VSoft Corporation, a global provider of information and technology solutions for financial institutions, announced today the hiring of Kevin Brauer, as the Chief Operating Officer of VServe, a division of VSoft.

VSoft's data center, VServe, has experienced tremendous growth over the last two years. Currently VServe serves over 1000 clients through partner relationships. This growth is expected to continue as financial institutions look to outsource check processing operations.

Kevin will be responsible for overseeing the overall operations of the data center, ensuring that the productivity is effective and efficient, and driving successful improvements for maximum value. He joins the VSoft leadership team after more than 20 years at Alloya Corporate Federal Credit Union and brings extensive experience in the financial operations industry.

Brauer served on the board of directors for various organizations and foundations. He is a member of the American Institute of Certified Public Accountants and the New York State Society of Certified Public Accountants. He holds an MBA from Marist College and received cum laude recognition from Niagara University with a bachelor's degree in business administration.

"We are pleased that Kevin is joining our VSoft leadership team," said Murthy Veeraghanta, Chairman and CEO of VSoft Corporation. "He brings vast knowledge and experience within the financial industry along with a commitment to client service. VServe is critical to the success of VSoft and I know that we will see positive developments with Kevin involved."

About VSoft Corporation

VSoft Corporation offers core and payment-processing solutions on a unified platform that improve service, reduce cost and maximize efficiency for financial institutions. Its solutions provide seamless, real-time, high-volume and high-performance transactions across multiple channels and can be delivered in–house, or as an outsourced ASP or SaaS model to best meet the needs of individual financial institutions.

VSoft's services have been trusted by more than 2,600, credit unions, banks and savings institutions and data centers worldwide. For more information call 770-225-7692 or visit www.vsoftcorp.com.
