VSoft Presents at 2014 RDC Summit Tech Showcase

VSoft Corporation to speak on RDC Platform Essentials in Las Vegas

ATLANTA, September 25, 2014 - VSoft Corporation, a global provider of information and technology solutions for financial institutions, announced today that they will be presenting at the annual RDC Summit Tech Showcase in Las Vegas on September 30th. They are a long time exhibitor and attendee of the RDC Summit and are excited to participate in the Tech Showcase for the second year in a row.

Christian Tomooka, VSoft's senior solutions engineer, will present RDC Platform Essentials: Solution Integration, Risk Mitigation and System Interoperability on Tuesday, September 30th at 2:45pm. He will cover topics on platform independency, the SMAC approach, and RDC transformation.

VSoft's remote deposit capture platform addresses the capture, validation, processing, and transmission of check images from all points of presentment. The flexible architecture facilitates the deployment of business rules that are appropriate for each point of presentment and institution. Their RDC solutions are designed with multi-institution capability from the outset, making it ideal for organizations processing transactions from multiple institutions.

Hundreds of financial institutions attend the RDC Summit, which RemoteDepositCapture.com has been hosting since 2008. Attendees will learn from industry experts and are able to network with peers and leading RDC and payment providers. Representatives from VSoft's Product and Sales teams will be in attendance as well as several of VSoft's current RDC clients.

"We are excited to exhibit at the RDC Summit again this year," said Murthy Veeraghanta, chairman and CEO, VSoft Corporation. "We look forward to sharing our session on RDC Platform Essentials with attendees and spending time with our clients and technology partners. See you at RDC Summit."
