VSoft's IRIS™ Omni-Channel Banking Now Available on Apple Watch™

ATLANTA, September 1, 2015 - [VSoft Corporation](#), a global provider of information and technology solutions for financial institutions, announced today that [IRIS™](#), the company's omni-channel platform spanning across all devices and channels for both personal and business banking, is now available on Apple Watch™.

As one of the few financial services providers to offer a banking app for Apple Watch, VSoft is enabling its financial institution clients to deliver a truly innovative digital banking platform to customers. By downloading the app, IRIS users can seamlessly view account and loan balances, as well as view transaction and payment history while on the go. Future enhancements include the ability to do a simple funds transfer using Apple Watch, along with the ability to show credit card balances.

IRIS is device agnostic and features a responsive design, while eliminating the need for separate products such as Internet banking, tablet banking and mobile banking. The consolidation of products and the consistent, intuitive interface ensures a positive user experience while delivering the convenience users expect. By now offering the platform through Apple Watch, VSoft is furthering the solution's superior convenience.

"For nearly two decades, VSoft has continued to innovate and provide solutions that meet the evolving technology landscape," said Murthy Veeraghanta, Chairman and CEO of VSoft Corporation. "Following that same commitment, delivering IRIS through a downloadable app for Apple Watch was a natural next step for us. IRIS is truly device agnostic and we aim to provide our bank and credit union clients a banking solution that fits their tech-savvy customers' expectations."
